Report on Internal Control Over Financial Reporting

The Association's principal executives and principal financial officers, or persons performing similar functions, are responsible for establishing and maintaining adequate internal control over financial reporting for the Association's Consolidated Financial Statements. For purposes of this report, "internal control over financial reporting" is defined as a process designed by, or under the supervision of the Association's principal executives and principal financial officers, or persons performing similar functions, and effected by its Board of Directors, management and other personnel. This process provides reasonable assurance regarding the reliability of financial reporting information and the preparation of the Consolidated Financial Statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Association, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial information in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the Association, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Association's assets that could have a material effect on its Consolidated Financial Statements.

The Association's management has completed an assessment of the effectiveness of internal control over financial reporting as of June 30, 2014. In making the assessment, management used the framework in *Internal Control — Integrated Framework*, promulgated by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the "COSO" criteria.

Based on the assessment performed, the Association concluded that as of June 30, 2014, the internal control over financial reporting was effective based upon the COSO (1992) criteria. Additionally, based on this assessment, the Association determined that there were no material weaknesses in the internal control over financial reporting as of June 30, 2014.

Farm Credit of the Virginias, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands)

The following commentary reviews the consolidated financial condition and results of operations of Farm Credit of the Virginias, ACA (Association) for the period ended June 30, 2014. These comments should be read in conjunction with the accompanying consolidated financial statements, notes to the consolidated financial statements and the 2013 Annual Report of the Association. The accompanying consolidated financial statements were prepared under the oversight of the Audit Committee of the Board of Directors.

LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners and farm-related businesses for financing of short and intermediate-term loans and long-term real estate mortgage loans. The Association's loan portfolio is diversified over a range of agricultural commodities including livestock, timber, poultry and field crops. Farm size varies and many of the borrowers in the region have diversified farming operations. This factor, along with the numerous opportunities for non-farm income in the area, somewhat impacts the level of dependency on a given commodity.

As of June 30, 2014, the gross loan volume of the Association was $1,528,566 compared to $1,483,454 at December 31, 2013. Gross loan volume increased $45,112 or 3.04% when compared to gross loan volume at December 31, 2013. Net loans outstanding at June 30, 2014 were $1,515,516 as compared to $1,471,576 at December 31, 2013. The increase in loan volume was primarily due to an increase in real estate and farm loans.

There is an inherent risk in the extension of any type of credit. However, portfolio credit quality continues to be maintained at an acceptable level and credit administration remains satisfactory. As of June 30, 2014, nonaccrual loan volume was $30,099 compared to $23,494 at December 31, 2013. The increase in nonaccrual loan volume was mainly due to one large account that was downgraded to nonaccrual status.

Other property owned totaled $2,601 at June 30, 2014. This was an increase of $264 when compared to December 31, 2013. The increase was primarily due to several loans going thru the foreclosure process and the property securing the loans being acquired by the Association.

Association management maintains an allowance for loan losses in an amount considered sufficient to absorb possible losses in the loan portfolio. Factors considered in determining the allowance for loan losses were generally based on recent historical charge-off experience adjusted for relevant environmental factors. The allowance for loan losses at June 30, 2014 was $13,050. This was an increase of $1,172 compared to the allowance amount at December 31, 2013.

RESULTS OF OPERATIONS

For the three months ended June 30, 2014

Net income for the three months ended June 30, 2014, totaled $7,492 as compared to $9,127 for the same period in 2013. This was a decrease of $1,635 or 17.91 percent. The decrease in net income was primarily due to a decrease in patronage refund from AgFirst Bank (AgFirst or Bank) and an increase in noninterest expense.

Net interest income increased $581 or 5.20 percent for the three months ended June 30, 2014, as compared to the same period in 2013. The increase in net interest income was primarily due to an increase in loan volume and a decrease in borrowing from the Bank.

The provision for loan loss totaled $1,200 for the three months ended June 30, 2014 compared to a $1,100 provision for the three months ended June 30, 2013. The increase in provision was mainly driven by the increase in nonaccrual loan volume.

Noninterest income for the three months ended June 30, 2014 totaled $3,447 compared to $4,741 for the same period last year. This was a decrease of $1,294 or 27.29 percent. The decrease in noninterest income was primarily due to a decrease in additional patronage refund from the Bank. Over the past couple of years, the Bank distributed an additional patronage refund to the Association. The additional patronage refund was due to higher than normal earnings by the Bank. For 2014, the Bank earnings are back to a more normal level. As a result, the Bank's patronage refund this quarter was at its normal amount which was a decrease of about $900 compared to last year.

Noninterest expenses for the three months ended June 30, 2014 totaled $6,481. This was an increase of $812 or 14.32 percent compared to the same period of 2013. The increase was mainly due to an increase in salaries and benefits, an increase in other operating expenses, such as sales and marketing, and last year having net gain on sales of other property owned versus a net loss on sales of other property owned this year.

For the six months ended June 30, 2014

Net income for the six months ended June 30, 2014 totaled $16,032 as compared to $17,104 for the same period in 2013. This was a decrease of $1,072 or 6.27 percent. The decrease was mainly due to not receiving additional patronage refund from the Bank and an increase in noninterest expense.

Net interest income for the six months increased $1,741 compared to the same period in 2013. The increase in net interest income was primarily due to an increase in loan volume and a decrease in borrowing from the Bank.

Provision for loan losses for the six months ended June 30, 2014, totaled $1,200 compared to $1,600 for the same period last year. A reduction of $400. The Association continues to experience improvement in the overall loan credit quality over the first six months of 2014, although nonaccrual loans did increase during the second quarter.

Noninterest income for the six months ended June 30, 2014, totaled $6,941 as compared to $8,487 for the same period of 2013. This was a decrease of $1,546. The decrease in noninterest income was primarily due to a decrease in additional patronage refund from the Bank.

Noninterest expenses for the six months ended June 30, 2012 totaled $13,301. This was an increase of $1,645 or 14.11 percent compared to the same period of 2013. The increase was mainly due to increases in employees' salaries and benefits, an increase in other operating expenses, such as sales and marketing, and last year having net gain on sales of other property owned versus a net loss on sales of other property owned this year.

FUNDING SOURCES

The principal source of funds for the Association is the borrowing relationship established with the Bank through a General Financing Agreement. The General Financing Agreement utilizes the Association's credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. The Bank advances the funds to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate sections. The variable rate note is utilized by the Association to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total notes payable to the Bank at June 30, 2014 was $1,219,825 as compared to $1,209,905 at December 31, 2013.

CAPITAL RESOURCES

Total members' equity at June 30, 2014 totaled $326,635, an increase of $16,025, as compared to $310,610 at December 31, 2013. The increase in members' equity was primarily attributed to earnings.

Farm Credit Administration (FCA) regulations require all Farm Credit institutions to maintain minimum permanent capital, total surplus and core surplus ratios. These ratios are calculated by dividing the Association's permanent capital, total surplus and core surplus as defined in FCA regulations, by a risk-adjusted asset base. As of June 30, 2014, both the Association's total surplus ratio and core surplus ratio were 18.72 percent and the permanent capital ratio was 19.89 percent. All three ratios were well above the minimum regulatory ratios of 7.00 percent for permanent capital and total surplus ratios and 3.50 percent for the core surplus ratio.

REGULATORY MATTERS

On March 31, 2014, the FCA published an interim final rule rescinding all requirements for nonbinding advisory votes on senior officer compensation at System Banks and Associations. The comment period for the interim rule ended on April 30, 2014 and the final rule became effective on June 18, 2014.

On May 8, 2014, the FCA approved a proposed rule to modify the regulatory capital requirements for System Banks and Associations. The stated objectives of the proposed rule are as follows:

- To modernize capital requirements while ensuring that institutions continue to hold sufficient regulatory capital to fulfill their mission as a government-sponsored enterprise.
- To ensure that the System's capital requirements are comparable to the Basel III framework and the standardized approach that the federal banking regulatory agencies have adopted, but also to ensure that the rules recognize the cooperative structure and the organization of the System.
- To make System regulatory capital requirements more transparent.
- To meet the requirements of section 939A of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act).

Once the proposed rule is published in the Federal Register, the 120-day public comment period will commence.

On June 12, 2014, the FCA approved a proposed rule to revise the requirements governing the eligibility of investments for System Banks and Associations. The stated objectives of the proposed rule are as follows:

- To strengthen the safety and soundness of System Banks and Associations.

- To ensure that System Banks hold sufficient liquidity to continue operations and pay maturing obligations in the event of market disruption.
- To enhance the ability of the System Banks to supply credit to agricultural and aquatic producers.
- To comply with the requirements of section 939A of the Dodd-Frank Act.
- To modernize the investment eligibility criteria for System Banks.
- To revise the investment regulation for System Associations to improve their investment management practices so they are more resilient to risk.

The public comment period ends on October 23, 2014.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Please refer to Note 1, *"Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements",* in the Notes to the Financial Statements, and the 2013 Annual Report to Shareholders for recently issued accounting pronouncements.

NOTE: Shareholder investment in the Association is materially affected by the financial condition and results of operations of AgFirst Farm Credit Bank. Copies of AgFirst's annual and quarterly reports are available upon request free of charge by calling 1-800-845-1745, ext. 2832, or writing Susanne Caughman, AgFirst Farm Credit Bank, P.O. Box 1499, Columbia, SC 29202. Information concerning AgFirst Farm Credit Bank can also be obtained at their website, *www.agfirst.com*. Copies of the Association's annual and quarterly reports are also available upon request free of charge by calling 540-886-3435, ext. 5020, or writing David Sauer, Farm Credit of the Virginias, ACA, P.O. Box 899, Staunton, VA 24402, or accessing the website, *www.farmcreditofvirginias.com*. The Association prepares a quarterly report within 40 days after the end of each fiscal quarter, except no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

Notes to the Consolidated Financial Statements

(dollars in thousands, except as noted)
(unaudited)

Note 1 — Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements

Organization

The accompanying financial statements include the accounts of Farm Credit of the Virginias, ACA (the Association). A description of the organization and operations, the significant accounting policies followed, and the financial condition and results of operations for the Association as of and for the year ended December 31, 2013, are contained in the 2013 Annual Report to Shareholders. These unaudited interim consolidated financial statements should be read in conjunction with the latest Annual Report to Shareholders.

Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform with generally accepted accounting principles (GAAP) and prevailing practices within the banking industry.

Certain amounts in the prior period's consolidated financial statements may have been reclassified to conform to the current period presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The results of any interim period are not necessarily indicative of the results to be expected for a full year.

Significant Accounting Policies

The Association maintains an allowance for loan losses at a level considered adequate by management to provide for probable and estimable losses inherent in the loan portfolio as of the report date. The allowance for loan losses is increased through provisions for loan losses and loan recoveries and is decreased through loan charge-offs and allowance reversals. A review of individual loans in each respective portfolio is performed periodically to determine the appropriateness of risk ratings and to ensure loss exposure to the Association has been identified.

Recently Issued Accounting Pronouncements

In May 2014 the Financial Accounting Standards Board (FASB), responsible for U.S. Generally Accepted Accounting Principles (U.S. GAAP), and the International Accounting Standards Board (IASB), responsible for International Financial Reporting Standards (IFRS), jointly issued converged standards on the recognition of revenue from contracts with customers. Accounting Standards Update (ASU) 2014-09, "Revenue from Contracts with Customers (Topic 606)" and IFRS 15 "Revenue from Contracts with Customers" are intended to improve the financial reporting of revenue and comparability of the top line in financial statements globally and supersede substantially all previous revenue recognition guidance. The core principle of the new standards is for companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration (that is, payment) to which the company expects to be entitled in exchange for those goods or services. The new standard also will result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively (for example, service revenue and contract modifications) and improve guidance for multiple-element arrangements. Because of the pervasive nature of the new guidance, the boards have established a joint transition resource group in order to aid transition to the new standard. For public entities reporting under U.S. GAAP, the amendments in the Update are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. For nonpublic entities, the amendments are effective for annual reporting periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. A nonpublic entity may elect to adopt this guidance earlier under certain circumstances. The amendments are to be applied retrospectively. Because financial instruments are not within the scope of the guidance, it is expected that adoption will not have a material impact on the Association's financial condition or results of operations, but may result in additional disclosures.

In March 2014 the FASB issued ASU 2014-06, "Technical Corrections and Improvements Related to Glossary Terms (Master Glossary)." The amendments in this Update relate to glossary terms, cover a wide range of Topics in the Codification and are presented in four sections: Deletion of Master Glossary Terms, Addition of Master Glossary Term Links, Duplicate Master Glossary Terms, and Other Technical Corrections Related to Glossary Terms. These amendments did not have transition guidance and were effective upon issuance for both public entities and nonpublic entities.

In January 2014 the FASB issued ASU 2014-04, "Receivables—Troubled Debt Restructurings by Creditors (Subtopic 310-40) - Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure." The objective of the amendments in this Update is to reduce diversity by clarifying when an in substance repossession or foreclosure occurs, that is, when a creditor should be considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan such that the loan receivable should be derecognized and the real estate property recognized. The amendments are effective for public business entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. For entities other than public business entities, the amendments in this Update are effective for annual periods beginning after December 15, 2014, and interim periods within annual periods beginning after December 15, 2015. An entity can elect to adopt the amendments in this Update using either a modified retrospective transition method or a prospective transition method. Early adoption is permitted.

Other recently issued accounting pronouncements are discussed in the 2013 Annual Report to Shareholders.

Note 2 — Loans and Allowance for Loan Losses

For a complete description of the Association's accounting for loans (including impaired loans and the allowance for loan losses) and definitions of loan types, see the 2013 Annual Report to Shareholders.

Credit risk arises from the potential inability of an obligor to meet its repayment obligation. The Association manages credit risk associated with lending activities through an assessment of the credit risk profile of an individual obligor. The Association sets its own underwriting standards and lending policies that provide direction to loan officers and are approved by the board of directors.

A summary of loans outstanding at period end follows:

	June 30, 2014	December 31, 2013
Real estate mortgage	$ 1,046,208	$ 1,023,966
Production and intermediate-term	389,831	370,738
Loans to cooperatives	26	–
Processing and marketing	35,473	31,956
Farm-related business	10,240	11,658
Communication	7,954	7,562
Rural residential real estate	38,834	37,574
Total Loans	$ 1,528,566	$ 1,483,454

A substantial portion of the Association's lending activities is collateralized, and exposure to credit loss associated with lending activities is reduced accordingly.

The Association may purchase or sell participation interests with other parties in order to diversify risk, manage loan volume, and comply with Farm Credit Administration (FCA) regulations. The following tables present participation loan balances at periods ended:

June 30, 2014	Within AgFirst District		Within Farm Credit System		Outside Farm Credit System		Total	
	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold

The recorded investment in a receivable is the face amount increased or decreased by applicable accrued interest, unamortized premium, discount, finance charges, or acquisition costs and may also reflect a previous direct write-down of the investment.

Nonperforming assets (including related accrued interest) and related credit quality statistics at period end were as follows:

	June 30, 2014	December 31, 2013
Nonaccrual loans:		
Real estate mortgage	$ 20,509	$ 13,060
Production and intermediate-term	5,693	6,437
Farm-related business	3,180	3,291
Rural residential real estate	717	706
Total nonaccrual loans	$ 30,099	$ 23,494
Accruing restructured loans:		
Real estate mortgage	$ 379	$ 382
Production and intermediate-term	463	–
Total accruing restructured loans	$ 842	$ 382
Accruing loans 90 days or more past due:		
Real estate mortgage	$ –	$ 193
Total accruing loans 90 days or more past due	$ –	$ 193
Performing impaired loans:		
Processing and marketing	$ 5,912	$ 6,100
Total performing impaired loans	$ 5,912	$ 6,100
Total nonperforming loans	$ 36,853	$ 30,169
Other property owned	2,601	2,337
Total nonperforming assets	$ 39,454	$ 32,506
Nonaccrual loans as a percentage of total loans	1.97%	1.58%
Nonperforming assets as a percentage of total loans and other property owned	2.58%	2.19%
Nonperforming assets as a percentage of capital	12.08%	10.47%

The following table presents information related to impaired loans (including accrued interest) at period end. Impaired loans are loans for which it is probable that all principal and interest will not be collected according to the contractual terms of the loan.

	June 30, 2014	December 31, 2013
Impaired nonaccrual loans:		
Current as to principal and interest	$ 11,061	$ 10,278
Past due	19,038	13,216
Total	30,099	23,494
Impaired accrual loans:		
Performing	5,912	6,100
Restructured	842	382
90 days or more past due	–	193
Total	6,754	6,675
Total impaired loans	$ 36,853	$ 30,169

The following tables present additional impaired information at period end. Unpaid principal balance represents the contractual principal balance of the loan.

	June 30, 2014			Quarter Ended June 30, 2014		Six Months Ended June 30, 2014

**Includes the loan types; Loans to cooperatives, Processing and marketing, and Farm-related business.*

A restructuring of a debt constitutes a troubled debt restructuring (TDR) if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. The following tables present additional information about pre-modification and post-modification outstanding recorded investment and the effects of the modifications that occurred during the periods presented.

	Three months ended June 30, 2014				
	Interest Concessions	Principal Concessions	Other Concessions	Total	Charge-offs
Pre-modification Outstanding Recorded Investment					
Production and intermediate-term	$ –	$ 486	$ –	$ 486	
Total	$ –	$ 486	$ –	$ 486	
Post-modification Outstanding Recorded Investment

Real estate mortgage	$ 520	$ –	$ –	$ 520	
Total	$ 520	$ –	$ –	$ 520	
Post-modification Outstanding Recorded Investment					
Real estate mortgage	$ 520	$ –	$ –	$ 520	$ –
Total	$ 520	$ –	$ –	$ 520	$ –

Interest concessions may include interest forgiveness and interest deferment. Principal concessions may include principal forgiveness, principal deferment, and maturity extension. Other concessions may include additional compensation received which might be in the form of cash or other assets.

There were no TDRs that occurred during the previous twelve months and for which there was a subsequent payment default during the periods presented. Payment default is defined as a payment that was thirty days or more past due.

The following table provides information at period end on outstanding loans restructured in troubled debt restructurings. These loans are included as impaired loans in the impaired loan table:

	Total TDRs		Nonaccrual TDRs	
	June 30, 2014	December 31, 2013	June 30, 2014	December 31, 2013
Real estate mortgage	$ 917	$ 955	$ 538	$ 573
Production and intermediate-term	490	28	27	28
Farm related business	3,180	3,291	3,180	3,291
Rural residential real estate	43	46	43	46
Total Loans	$ 4,630	$ 4,320	$ 3,788	$ 3,938
Additional commitments to lend	$ –	$ –		

Note 3 — Debt

Notes Payable to AgFirst Farm Credit Bank

The Association's indebtedness to AgFirst Farm Credit Bank (AgFirst or the Bank) represents borrowings by the Association primarily to fund its loan portfolio. This indebtedness is collateralized by a pledge of substantially all of the Association's assets. The contractual terms of the revolving line of credit are contained in the General Financing Agreement (GFA). The GFA also defines Association performance criteria for borrowing from the Bank, which includes borrowing base margin, earnings and capital covenants, among others.

Note 4 — Members' Equity

Accumulated Other Comprehensive Income (AOCI)

The following tables present activity related to AOCI for the periods presented:

Changes in Accumulated Other Comprehensive income by Component *(a)*

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Employee Benefit Plans:				
Balance at beginning of period	$ (10)	$ (17)	$ (10)	$ (17)
Other comprehensive income before reclassifications	–	–	–	–
Amounts reclassified from AOCI	–	–	–	–
Net current period other comprehensive income	–	–	–	–
Balance at end of period	$ (10)	$ (17)	$ (10)	$ (17)

Reclassifications Out of Accumulated Other Comprehensive Income *(b)*

	For the three months ended June 30,		For the six months ended June 30,		
	2014	2013	2014	2013	Income Statement Line Item
Defined Benefit Pension Plans:					
Periodic pension costs	$ –	$ –	$ –	$ –	See Note 6.
Net amounts reclassified	$ –	$ –	$ –	$ –	

(a) Amounts in parentheses indicate debits to AOCI.
(b) Amounts in parentheses indicate debits to profit/loss.

Note 5 — Fair Value Measurement

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability.

Accounting guidance establishes a hierarchy for disclosure of fair value measurements to maximize the use of observable inputs, that is, inputs that reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of the reporting entity. The hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the hierarchy tiers is based upon the lowest level of input that is significant to the fair value measurement.

Estimating the fair value of the Association's investment in the Bank and Other Farm Credit Institutions is not practicable because the stock is not traded. The net investment is a requirement of borrowing from the Bank and is carried at cost plus allocated equities in the accompanying Consolidated Balance Sheets. The Association owns 10.09 percent of the issued stock of the Bank as of June 30, 2014 net of any reciprocal investment. As of that date, the Bank's assets totaled $28.2 billion and shareholders' equity totaled $2.3 billion. The Bank's earnings were $183 million for the first six months of 2014. In addition, the Association has no investment related to other Farm Credit institutions.

The classifications within the fair value hierarchy are as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 inputs include quoted prices for similar assets and liabilities in active markets; quoted prices in markets that are not active; and inputs that are observable, or can be corroborated, for substantially the full term of the asset or liability. The Association has no Level 2 assets and liabilities measured at fair value.

Level 3 inputs are unobservable and supported by little or no market activity. Valuation is determined using pricing models, discounted cash flow methodologies, or similar techniques, and could include significant management judgment or estimation. Level 3 assets and liabilities also could include instruments whose price has been adjusted based on dealer quoted pricing that is different than the third-party valuation or internal model pricing.

For a complete discussion of the inputs and other assumptions considered in assigning various assets and liabilities to the fair value hierarchy levels, see the latest Annual Report to Shareholders.

The following table presents the changes in Level 3 assets and liabilities measured at fair value on a recurring basis for the periods presented. The Association had no transfers of assets or liabilities into or out of Level 1 or Level 2 during the periods presented.

	Standby Letters of Credit	
	For the six months ended June 30,	
	2014	2013
Balance at beginning of period	$ 70	$ 71
Issuances	–	–
Settlements	(21)	(7)
Balance at end of period	$ 49	$ 64

SENSITIVITY TO CHANGES IN SIGNIFICANT UNOBSERVABLE INPUTS

Discounted cash flow or similar modeling techniques are generally used to determine the recurring fair value measurements for Level 3 assets and liabilities. Use of these techniques requires determination of relevant inputs and assumptions, some of which represent significant unobservable inputs as indicated in the tables that follow. Accordingly, changes in these unobservable inputs may have a significant impact on fair value.

Certain of these unobservable inputs will (in isolation) have a directionally consistent impact on the fair value of the instrument for a given change in that input. Alternatively, the fair value of the instrument may move in an opposite direction for a given change in another input. Where multiple inputs are used within the valuation technique of an asset or liability, a change in one input in a certain direction may be offset by an opposite change in another input having a potentially muted impact to the overall fair value of that particular instrument. Additionally, a change in one unobservable input may result in a change to another unobservable input (that is, changes in certain inputs are interrelated with one another), which may counteract or magnify the fair value impact.

Other Property Owned/Impaired loans

Other property owned and impaired loans are valued using appraisals, market comparable sales, replacement costs and income and expense (cash flow) techniques. Certain unobservable inputs are used within these techniques to determine the level 3 fair value of these properties. The significant unobservable inputs are primarily sensitive only to industry, geographic and overall economic conditions, and/or specific attributes of each property.

Inputs to Valuation Techniques

Management determines the Association's valuation policies and procedures. The Bank performs the majority of the Association's valuations, and its valuation processes are calibrated annually by an independent consultant. The fair value measurements are analyzed on a quarterly basis. For other valuations, documentation is obtained for third party information, such as pricing, and periodically evaluated alongside internal information and pricing that is available.

Quoted market prices are generally not available for the instruments presented below. Accordingly fair values are based on judgments regarding anticipated cash flows, future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates involve uncertainties and matters of judgment, and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Quantitative Information about Recurring and Nonrecurring Level 3 Fair Value Measurements

	Fair Value	Valuation Technique(s)	Unobservable Input	Range
Impaired loans and other property owned	$ 35,079	Appraisal	Income and expense	*
			Comparable sales	*
			Replacement cost	*
			Comparability adjustments	*

** Ranges for this type of input are not useful because each collateral property is unique.*

Information about Other Financial Instrument Fair Value Measurements

	Valuation Technique(s)	Input
Cash	Carrying Value	Par/Principal and appropriate interest yield
Loans	Discounted cash flow	Prepayment forecasts
		Probability of default
		Loss severity
Other investments	Discounted cash flow	Prepayment rates
		Risk adjusted discount rate
Notes payable to AgFirst Farm Credit Bank	Discounted cash flow	Prepayment forecasts
		Probability of default
		Loss severity

The following tables present the carrying amounts and fair values of assets and liabilities that are measured at fair value on a recurring and nonrecurring basis, as well as those financial instruments not measured at fair value, for each of the hierarchy levels at the period ended:

	At or for the Six Months Ended June 30, 2014					
	Total Carrying Amount	**Level 1**	**Level 2**	**Level 3**	**Total Fair Value**	**Fair Value Effects On Earnings**

Note 6 — Employee Benefit Plans

The following is a table of retirement and other postretirement benefit expenses for the Association:

	For the three months ended June 30,		For the six months ended June 30,	
	2014	2013	2014	2013
Pension	$ 871	$ 882	$ 1,741	$ 1,762
401(k)	93	85	245	225
Other postretirement benefits	172	164	344	328
Total	$ 1,136	$ 1,131	$ 2,330	$ 2,315

The following is a table of retirement and other postretirement benefit contributions for the Association:

	Actual YTD Through 6/30/14	Projected Contributions For Remainder of 2014	Projected Total Contributions 2014
Pension	$ 4	$ 2,714	$ 2,718
Other Postretirement benefits	193	213	406
Total	$ 197	$ 2,927	$ 3,124

Contributions in the above table include allocated estimates of funding for multi-employer plans in which the Association participates. These amounts may change when a total funding amount and allocation is determined by the respective Plan's Sponsor Committee. Also, market conditions could impact discount rates and return on plan assets which could change contributions necessary before the next plan measurement date of December 31, 2014.

Further details regarding employee benefit plans are contained in the 2013 Annual Report to Shareholders.

In May 2014, the AgFirst Plan Sponsor Committee voted to approve changes to certain employee benefit plans as follows:

(1) On January 1, 2015, the AgFirst Farm Credit Cash Balance Retirement Plan (Cash Balance Plan) will be frozen, employer contributions will cease, and the Cash Balance Plan will be closed to new entrants.
(2) In lieu of participation in and contributions to the Cash Balance Plan, additional employer contributions will be made to the Farm Credit Benefits Alliance 401(k) Plan.

The above changes are expected to become officially executed plan amendments in November 2014. The Cash Balance Plan will not be terminated on January 1, 2015, but is expected to be terminated in 2015 or 2016 once all necessary actions have been performed and approvals obtained. Participants in the Cash Balance Plan will continue to receive employer contributions to their hypothetical cash balance accounts through the end of 2014, at which time contributions will cease. Participants will continue receiving interest credits on the same basis as currently being provided until the Cash Balance Plan is terminated. Participants who are not already fully vested in their accounts will automatically become 100% vested on December 31, 2014. Following the termination of the Cash Balance Plan, vested benefits will be distributed to participants.

Beginning on January 1, 2015, for participants in the Cash Balance Plan and eligible employees hired on or after this date, an additional employer contribution will be made to the Farm Credit Benefits Alliance 401(k) Plan equal to 3% of the participants' eligible compensation.

Accounting related to the curtailment of future benefit service under the Cash Balance Plan, as prescribed in ASC 715 "Compensation – Retirement Benefits", is expected to be triggered in November 2014 when the plan amendments are officially executed. This accounting is not expected to have a material impact on the Association's financial condition or results of operations.

Note 7 — Commitments and Contingent Liabilities

From time to time, legal actions are pending against the Association in which claims for money damages are asserted. On at least a quarterly basis, the Association assesses its liabilities and contingencies in connection with outstanding legal proceedings utilizing the latest information available. While the outcome of legal proceedings is inherently uncertain, on the basis of information presently available, management, after consultation with legal counsel, is of the opinion that the ultimate liability, if any, from these actions, would not be material in relation to the financial position of the Association. Because it is not probable that the Association will incur a loss or the loss is not estimable, no liability has been recorded for any claims that may be pending.

Note 8 — Subsequent Events

The Association has evaluated subsequent events and has determined there are none requiring disclosure through August 7, 2014, which is the date the financial statements were issued.
