

Agriculture & Football

An American Institution and one of America's Major Industries Play Great Together!

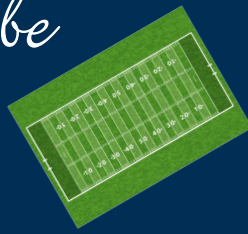

Today's footballs are made of leather from cow hides...and one hide can make 20 footballs!

11,520 footballs are used during regular season games... that's **576** cow hides!

Footballs are sometimes called pig skins because they used to be made from pig bladders!

Grass or synthetic, ag products can be found on the field as well!

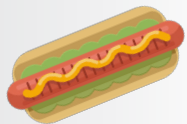

Tickets are printed on paper (from trees and sometimes made from cornstarch) and can use soy ink from soybeans!

And don't forget food!

- chicken wings
- popcorn
- peanuts
- hotdogs/hamburgers
- chips and guacamole

From the chicken, beef and pork to the (pop) corn, peanuts, wheat, tomato, mustard, avocados, corn (for the chips) and more, your favorite football snacks depend on ag!

Another Touchdown for Agriculture!
