Report on Internal Control Over Financial Reporting

The Association's principal executives and principal financial officers, or persons performing similar functions, are responsible for establishing and maintaining adequate internal control over financial reporting for the Association's Consolidated Financial Statements. For purposes of this report, "internal control over financial reporting" is defined as a process designed by, or under the supervision of the Association's principal executives and principal financial officers, or persons performing similar functions, and effected by its Board of Directors, management and other personnel. This process provides reasonable assurance regarding the reliability of financial reporting information and the preparation of the Consolidated Financial Statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Association, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial information in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the Association, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Association's assets that could have a material effect on its Consolidated Financial Statements.

The Association's management has completed an assessment of the effectiveness of internal control over financial reporting as of June 30, 2025. In making the assessment, management used the framework in *Internal Control* — *Integrated Framework (2013)*, promulgated by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the "COSO" criteria.

Based on the assessment performed, the Association's management concluded that as of June 30, 2025, the internal control over financial reporting was effective based upon the COSO criteria. Additionally, based on this assessment, the Association's management determined that there were no material weaknesses in the internal control over financial reporting as of June 30, 2025.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands)

The following commentary reviews the financial condition and results of operations of Farm Credit of the Virginias, ACA (Association) for the period ended June 30, 2025, with comparisons to prior periods. These comments should be read in conjunction with the accompanying financial statements, notes to the financial statements and the 2024 Annual Report of the Association. The accompanying consolidated financial statements were prepared under the oversight of the Audit Committee of the Board of Directors.

LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners and farm-related businesses for financing of short and intermediate-term loans and long-term real estate mortgage loans. The Association's loan portfolio is diversified over a range of agricultural commodities including livestock, timber, poultry, field crops, and also includes part-time farmer and rural home loans. Farm size varies and many of the borrowers in the region have diversified farming operations. This factor, along with the numerous opportunities for non-farm income in the area, impacts the level of dependency on a given commodity.

The total loan volume of the Association as of June 30, 2025, was \$2,398,281, an increase of \$71,744 as compared to \$2,326,537 at December 31, 2024.

ASSET QUALITY AND LOAN LOSS RESERVES

There is an inherent risk in the extension of any type of credit. Portfolio credit quality continues to be maintained at an acceptable level and credit administration remains satisfactory. Nonaccrual loans decreased to \$20,189 at June 30, 2025 from \$26,747 at December 31, 2024. As a percent of total loans, nonaccrual loans were 0.84% and 1.15% at June 30, 2025 and December 31, 2024, respectively.

Association management maintains an allowance for credit losses (ACL) in an amount considered sufficient to absorb estimated current and expected credit losses over the financial assets expected life. The most significant component of the Association's ACL is the allowance for credit losses on loans (ACLL). The ACLL at June 30, 2025, was \$6,968 or 0.29% of total loans compared to \$5,101 or 0.22% of total loans at December 31, 2024, and is considered by management to be adequate to cover estimated current and expected losses within the loan portfolio. See further detail on the Association's ACL within the Association's Annual Report and discussion of significant provision for credit loss within the *Results of Operations* below.

RESULTS OF OPERATIONS

For the three months ended June 30, 2025

Net income for the three months ended June 30, 2025, was \$9,038, a decrease of \$1,435 as compared to net income of \$10,473 for the same period ended in 2024. Major changes in the components of net income are discussed below.

For the three months ended June 30, 2025, net interest income was \$17,420, an increase of \$780, and the net interest margin was 2.99%, a decrease of 9 basis points as compared to the same period ended in 2024.

The provision for credit losses for the three months ended June 30, 2025, was \$1,308, an increase of \$1,034 from the provision for credit losses of \$274 for the same period ended during the prior year. The change was primarily driven the impact of macroeconomic forecasts within the allowance model.

Noninterest income decreased \$847 to \$3,268 during the three months ended June 30, 2025 compared to the same period ended during the prior year primarily due a decrease of \$585 in insurance fund refunds which were not received in current period, and a decrease of \$311 in patronage refunds from other Farm Credit institutions.

For the three months ended June 30, 2025, noninterest expense increased \$332 to \$10,334 compared to the same period ended during the prior year, primarily due to higher technology related purchased services expense of \$778, partially offset by lower salaries and employee benefits expense of \$214 and lower other operating expenses of \$254 as compared to the same period ended during the prior year.

For the six months ended June 30, 2025

Net income for the six months ended June 30, 2025, was \$18,479, a decrease of \$1,742 as compared to net income of \$20,221 for the same period ended in 2024. Major changes in the components of net income are discussed below.

For the six months ended June 30, 2025, net interest income was \$34,939, an increase of \$1,828, and the net interest margin was 3.01%, a decrease of 9 basis points as compared to the same period ended in 2024.

The provision for credit losses for the six months ended June 30, 2025, was \$2,017, an increase of \$1,423 from the provision for credit losses of \$594 for the same period ended during the prior year. The change was primarily driven the impact of macroeconomic forecasts within the allowance model.

Noninterest income decreased \$1,473 to \$6,660 during the first six months of 2025 compared with the first six months of 2024 primarily due to the decrease of \$714 in patronage refunds from other Farm Credit institutions and a decrease of \$486 of gains on sales of premises and equipment, net.

For the six months ended June 30, 2025, noninterest expense increased \$664 to \$21,087 compared to the same period ended in 2024 primarily due to higher technology related purchased services expense variance of \$1,461, partially offset by lower salaries and employee benefits expense of \$454 and lower other operating expenses of \$323 as compared to the same period ended during the prior year.

FUNDING SOURCES

The principal source of funds for the Association is the borrowing relationship established with AgFirst Farm Credit Bank (the Bank) through a General Financing Agreement. The General Financing Agreement utilizes the Association's credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. The Bank advances funds to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate sections. The variable rate note is utilized by the Association to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total notes payable to the Bank at June 30, 2025, was \$1,931,697 as compared to \$1,851,854 at December 31, 2024.

CAPITAL RESOURCES

Total members' equity at June 30, 2025, was \$513,719, an increase of \$18,607 from a total of \$495,112 at December 31, 2024. The increase in members' equity is primarily related to net income of \$18,479 recorded during the six month period ending June 30, 2025. Total capital stock and participation certificates were \$11,237 on June 30, 2025, compared to \$11,109 on December 31, 2024.

FCA sets minimum regulatory capital requirements with a capital conservation buffer for System banks and associations. Capital adequacy is evaluated using a number of regulatory ratios.

The following sets forth the regulatory capital ratios:

	Regulatory			
	Minimum			
	Including			
	Buffer*	6/30/25	12/31/24	6/30/24
Permanent Capital Ratio	7.00%	19.14%	19.99%	20.39%
Common Equity Tier 1 (CET1) Capital Ratio	7.00%	19.09%	19.94%	20.34%
Tier 1 Capital Ratio	8.50%	19.09%	19.94%	20.34%
Total Regulatory Capital Ratio	10.50%	19.34%	20.19%	20.61%
Tier 1 Leverage Ratio**	5.00%	19.65%	20.61%	21.07%
Unallocated Retained Earnings (URE) and URE Equivalents	1.50%	19.18%	20.14%	20.58%

^{*}Include full capital conservation buffers.

If the capital ratios fall below the minimum regulatory requirements, including the buffer amounts, capital distributions (equity redemptions, dividends, and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior FCA approval. For all periods presented, the Association exceeded minimum regulatory requirements for all of the ratios.

REGULATORY MATTERS

On November 29, 2024, the Farm Credit Administration (FCA) published a proposed rule on internal control over financial reporting (ICFR) in the Federal Register. The proposed rule would amend the financial reporting regulations to require System Associations that meet certain asset thresholds or conditions, as well as the Banks, to obtain annual attestation reports from their external auditors that express an opinion on the effectiveness of ICFR (also known as integrated audit). Associations would meet the requirement for an integrated audit if it represents 1% or more of total System assets; 15% or more of its' District Bank's direct loans to Associations or if the FCA's Office of Examination determines that a material weakness in the Association's ICFR exists. The comment period ended on March 31, 2025.

On February 8, 2024, the FCA approved a final rule to amend its regulatory capital requirements to define and establish risk-weightings for High Volatility Commercial Real Estate (HVCRE) exposures by assigning a 150% risk-weighting to such exposures, instead of the current 100% to reflect their increased risk characteristics. The rule further ensures comparability between the FCA's risk-weightings and the federal banking regulators, with deviations as appropriate to accommodate the different regulatory, operational and credit considerations of the System. The final rule excludes certain acquisition, development and construction loans that do not present as much risk and therefore do not warrant the risk weight for HVCRE. In addition, the final rule adds an exclusion for loans originated for less than \$500,000. On October 16, 2024, the FCA extended the implementation date of this rule from January 1, 2025 to January 1, 2026.

On October 5, 2023, the FCA approved a final rule on cyber risk management that requires each System institution to develop and implement a comprehensive, written cyber risk management program. Each institution's cyber risk plan must require the institution to take the necessary actions to assess internal and external risk factors, identify potential system and software vulnerabilities, establish a risk management program for the risks identified, develop a cyber risk training program, set policies for managing third-party relationships, maintain robust internal controls and establish institution board reporting requirements. The final rule became effective on January 1, 2025.

NOTE: Shareholder investment in the Association is materially affected by the financial condition and results of operations of AgFirst Farm Credit Bank. Copies of AgFirst's annual and quarterly reports are available upon request free of charge by calling 1-800-845-1745, ext. 2764, or writing Matthew Miller, AgFirst Farm Credit Bank, P.O. Box 1499, Columbia, SC 29202. Information concerning AgFirst Farm Credit Bank can also be obtained at their website, www.agfirst.com. Copies of the Association's annual and quarterly reports are also available upon request free of charge by calling 540-886-3435, ext. 5040, or writing Justin Weekley, Farm Credit of the Virginias, ACA, P.O. Box 899, Staunton, VA 24402, or accessing the website, www.farmcreditofvirginias.com. The Association prepares a quarterly report within 40 days after the end of each fiscal quarter, except no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

^{**}The Tier 1 Leverage Ratio must include a minimum of 1.50% of URE and URE equivalents.

Notes to the Consolidated Financial Statements

(dollars in thousands, except as noted)
(unaudited)

Note 1 — Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements

Organization

The accompanying financial statements include the accounts of Farm Credit of the Virginias, ACA and its Production Credit Association (PCA) and Federal Land Credit Association (FLCA) subsidiaries (collectively, the Association). Descriptions of the organization and operations, the significant accounting policies followed, and the financial condition and results of operations for the Association as of and for the year ended December 31, 2024, are contained in the 2024 Annual Report to Shareholders. These unaudited interim consolidated financial statements should be read in conjunction with the latest Annual Report to Shareholders.

Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair statement of results for the periods presented. These adjustments are of a normal recurring nature, unless otherwise disclosed.

Certain amounts in the prior period's consolidated financial statements have been reclassified to conform to the current period presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The results of any interim period are not necessarily indicative of those to be expected for a full year.

Significant Accounting Policies

The Association's accounting and reporting policies conform with U.S. generally accepted accounting principles (GAAP) and practices in the financial services industry. To prepare the financial statements in conformity with GAAP, management must make estimates based on assumptions about future economic and market conditions (for example, unemployment, market liquidity, real estate prices, etc.) that affect the reported amounts of assets and liabilities at the date of the financial statements, income and expenses during the reporting period, and the related disclosures. Although these estimates contemplate current conditions and expectations of change in the future, it is reasonably possible that actual conditions may be different than anticipated, which could materially affect results of operations and financial condition.

Management has made significant estimates in several areas, including loans and allowance for credit losses (Note 2, *Loans and Allowance for Credit Losses*) and financial instruments (Note 5, *Fair Value Measurement*). Actual results could differ from those estimates.

For further details of significant accounting policies, see Note 2, *Summary of Significant Accounting Policies*, from the latest Annual Report.

Recently Issued or Adopted Accounting Pronouncements

In December 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2023-09 - Income Taxes: Improvements to Income Tax Disclosures. The amendments in this standard require more transparency about income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid information. The amendments in this standard require qualitative disclosure about specific categories of reconciling items and individual jurisdictions that result in a significant difference between the statutory tax rate and the effective tax rate. Income taxes paid will require disaggregated disclosure by federal, state and foreign jurisdictions for amounts exceeding a quantitative threshold of greater than five percent of total income taxes paid. The amendments are effective for annual periods beginning after December 15, 2025. The adoption of this guidance is not expected to have a material impact on the Association's financial condition, results of operations or cash flows.

Note 2 — Loans and Allowance for Credit Losses

A summary of loans outstanding at period end follows:

	 June 30, 2025	December 31, 2024
Real estate mortgage	\$ 1,770,666	\$ 1,751,407
Production and intermediate-term	395,211	351,905

Rural residential real estate		- 331	331						
Total	\$ 3,26	4 \$ 23,483	\$ 26,747						

The Association recognized \$184 and \$587 of interest income on nonaccrual loans during the three months ended June 30, 2025 and June 30, 2024, respectively. The Association recognized \$641 and \$882 of interest income on nonaccrual loans during the six months ended June 30, 2025 and June 30, 2024, respectively.

Reversals of interest income on loans that moved to nonaccrual status were not material for the three and six months ended June 30, 2025 and 2024.

A summary of changes in the allowance for credit losses is as follows:

	Three Months Ended June 30,				
		2025		2024	
Allowance for Credit Losses on Loans:					
Balance at beginning of period	\$	5,719	\$	5,515	
Charge-offs		(4)		(82)	
Recoveries		14		161	
Provision for credit losses on loans		1,239		255	
Balance at end of period	\$	6,968	\$	5,849	
Allowance for Credit Losses on Unfunded Commitments:					
Balance at beginning of period	\$	437	\$	524	
Provision for unfunded commitments		69		19	
Balance at end of period	\$	506	\$	543	
Total allowance for credit losses	\$	7,474	\$	6,392	

	Six Months Ended June 30,						
	2025			2024			
Allowance for Credit Losses on Loans:							
Balance at beginning of period	\$	5,101	\$	5,362			
Charge-offs		(67)		(200)			
Recoveries		21		168			
Provision for credit losses on loans		1,913		519			
Balance at end of period	\$	6,968	\$	5,849			
Allowance for Credit Losses on Unfunded Commitments:							
Balance at beginning of period	\$	402	\$	468			
Provision for unfunded commitments		104		75			
Balance at end of period	\$	506	\$	543			
Total allowance for credit losses	\$	7,474	\$	6,392			

Loan modifications may be granted to borrowers experiencing financial difficulty. Qualifying disclosable modifications are one, or a combination of, principal forgiveness, interest rate reduction, or a term or payment extension. Covenant waivers and modifications of contingent acceleration clauses are not considered term extensions.

The following tables show the amortized cost basis at the end of the reporting period for loan modifications granted to borrowers experiencing financial difficulty during the three and six months ended June 30, 2025, disaggregated by loan type and type of modification granted:

	For the Three Months Ended June 30, 2025									
		Maturity			Percentage of Total by					
		Extension		Total	Loan Type					
Real estate mortgage	\$	1,759	\$	1,759	0.10%					
Production and intermediate-term		177		177	0.04%					
Total	\$	1,936	\$	1,936	0.08%					

	For the Six Months Ended June 30, 2025								
		Maturity Extension		Total	Percentage of Total by Loan Type				
Real estate mortgage	\$	1,862	\$	1,862	0.11%				
Production and intermediate-term		764		764	0.19%				
Agribusiness	_	2,357		2,357	1.82%				
Total	- \$	4,983	\$	4,983	0.21%				

The following table describes the financial effects of the modifications made to borrowers experiencing financial difficulty during the three months ended June 30, 2025:

	Maturity Extension
	Financial Effect
Real estate mortgage Production and intermediate-term	Added a weighted average 1.4 years to the life of loans Added a weighted average 1.2 years to the life of loans

The following table describes the financial effects of the modifications made to borrowers experiencing financial difficulty during the six months ended June 30, 2025:

	Maturity Extension
	Financial Effect
Real estate mortgage	Added a weighted average 1.9 years to the life of loans
Production and intermediate-term	Added a weighted average 2.0 years to the life of loans
Agribusiness	Added a weighted average 6.0 months to the life of loans

The following table sets forth the amortized cost of loans to borrowers experiencing financial difficulty that defaulted during the three months ended June 30, 2025 and received a modification in the twelve months before default:

	Ma	turity Extension
		June 30, 2025
Production and intermediate-term	\$	509
Total	\$	509

The following table sets forth the amortized cost of loans to borrowers experiencing financial difficulty that defaulted during the six months ended June 30, 2025 and received a modification in the twelve months before default:

	M	aturity Extension
		June 30, 2025
Production and intermediate-term	\$	509
Total	\$	509

The following table sets forth an aging analysis of loans to borrowers experiencing financial difficulty that were modified during the twelve months prior to June 30, 2025:

	June 30, 2025									
	(Current		-89 Days ast Due		Days or ore Past Due		Total		
Real estate mortgage	\$	2,074	\$	-	\$	-	\$	2,074		
Production and intermediate-term		2,050		506		-		2,556		
Agribusiness		2,357		-		-		2,357		
Rural residential real estate		62		-		-		62		
Total	\$	6,543	\$	506	\$	_	\$	7,049		

Accrued interest receivable at the end of the reporting period related to loan modifications granted to borrowers experiencing financial difficulty during the three and six months ended June 30, 2025 were \$1 and \$4, respectively. Additional commitments to lend to borrowers experiencing financial difficulties whose loans have been modified were \$348 and \$592 at June 30, 2025 and December 31, 2024, respectively.

Modified loans to borrowers experiencing financial difficulty and activity on these loans were not material during the three and six months ended June 30, 2024. There were no material commitments to lend to borrowers experiencing financial difficulty whose loans have been modified at June 30, 2024. There were no material modifications to distressed borrowers that occurred during the previous twelve months and for which there was a subsequent payment default during the period.

The Association had no loans held for sale at June 30, 2025 and December 31, 2024.

Note 3 — Investments

Equity Investments in Other Farm Credit System Institutions

Equity investments in other Farm Credit System institutions are generally nonmarketable investments consisting of stock and participation certificates, allocated surplus, and reciprocal investments in other institutions regulated by the FCA. These investments are carried at cost and evaluated for impairment based on the ultimate recoverability of the par value rather than by recognizing temporary declines in value.

Associations are required to maintain ownership in AgFirst (AgFirst or the Bank) in the form of Class B or Class C stock as determined by the Bank. The Bank may require additional capital contributions to maintain its capital requirements. The Association owned 6.13% of the issued stock and allocated retained earnings of the Bank as of June 30, 2025 net of any reciprocal investment. As of that date, the Bank's assets totaled \$48.4 billion and shareholders' equity totaled \$2.0 billion. The Bank's earnings were \$129 million for the first six months of 2025. In addition, the Association held \$1,066 in investments related to other Farm Credit institutions.

Note 4 — Members' Equity

Note 5 — Fair Value Measurement

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability. See Note 2, *Summary of Significant Accounting Policies* of the most recent Annual Report to Shareholders for additional information.

Fair values are estimated at each period end date for assets and liabilities measured at fair value on a recurring basis. The following tables summarize assets measured at fair value at period end.

June 30, 2025

	M	_	Total Fair				
	Level 1		Level 2		Level 3		Value
•	1.250	Φ		Φ.		Φ	1.250
\$	1,259	\$	_	\$	_	\$	1,259

⁽b) Amounts in parentheses indicate debits to profit/loss.

Valuation Techniques

As more fully discussed in Note 2, Summary of Significant Accounting Policies of the most recent Annual Report to Shareholders, accounting guidance establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Fair values of financial instruments represent the estimated amount to be received to sell an asset or paid to transfer or extinguish a liability in active markets among willing participants at the reporting date. Due to the uncertainty of expected cash flows resulting from financial instruments, the use of different assumptions and valuation methodologies could significantly affect the estimated fair value amounts. Accordingly, certain of the estimated fair values may not be indicative of the amounts for which the financial instruments could be exchanged in a current or future market transaction. The following represent a brief summary of the valuation techniques used by the System institution for assets and liabilities:

Assets held in trust funds

Assets held in trust funds, related to deferred compensation plans, are classified as Level 1. The trust funds include investments in securities that are actively traded and have quoted net asset value prices that are directly observable in the marketplace.

Nonaccrual loans

For certain loans evaluated for credit loss under FASB impairment guidance, the fair value is based upon the underlying collateral since the loans are collateral-dependent loans for which real estate is the collateral. The fair value measurement process uses independent appraisals and other market-based information, but in many cases, it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters. As a result, a majority of these loans have fair value measurements that fall within Level 3 of the fair value hierarchy. When the value of the real estate, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established.

Other property owned

Other property owned is generally classified as Level 3 of the fair value hierarchy. The process for measuring the fair value of other property owned involves the use of independent appraisals or other market-based information. Costs to sell represent transaction costs and are not included as a component of the asset's fair value.

Note 6 — Commitments and Contingent Liabilities

From time to time, legal actions are pending against the Association in which claims for money damages are asserted. On at least a quarterly basis, the Association assesses its liabilities and contingencies in connection with outstanding legal proceedings utilizing the latest information available. While the outcome of legal proceedings is inherently uncertain, on the basis of information presently available, management, after consultation with legal counsel, is of the opinion that the ultimate liability, if any, from these actions, would not be material in relation to the financial position of the Association. Because it is remote that the Association will incur a loss or the loss is not estimable, no liability has been recorded for any claims that may be pending.

Note 7 — Subsequent Events

The Association evaluated subsequent events and determined there were none requiring disclosure through August 8, 2025, which was the date the financial statements were issued.
