

# TOP 5 STRATEGIES FOR A YOUNG OR BEGINNING FARMER

Reserve time for yourself, to be with family and friends.

**Have a work-life balance**

**Treat your farm as a business**

When starting a farm, no matter what size, treat it as a business.

**Build a network**

The best way to learn about farming is by talking to other farmers.

**Know and make use of all the available resources**

**Know your strengths, weaknesses, threats and opportunities**

Make it your priority to know all your resources and use them to your advantage.

When identifying threats, this allows you to come up with strategies to minimize the associated risks.
