

## The Balance Sheet- Student Driven Lesson and Activities

**Student Driven Activity:** Develop your own scenario to be used with a balance sheet. Be sure to include all portions of the assets and liabilities. Use the example scenario from class to make sure you've included all pieces. The teacher will collect everyone's scenarios and will hand them back out to others in the class to problem solve and create a balance sheet with.

**ALTERNATIVE Student Driven LESSON:** Have students read the Take Home Reading portion of the lesson. After reading through and using note taking techniques such as highlighting definitions or pertinent information or underlining examples have them divide up into 5 groups. Each group will prepare a short presentation on ONE of the following:

1. Current Assets
2. Non-Current Assets
3. Current Liabilities
4. Non-Current Liabilities
5. Net Worth/Liquidity/Solvency

Be sure to utilize examples of each section so the students will have a place to start when working through the balance sheet worksheets.
