

# Peanut Fun Facts

**Peanuts are not actually nuts, but rather a legume that is related to beans and lentils.**

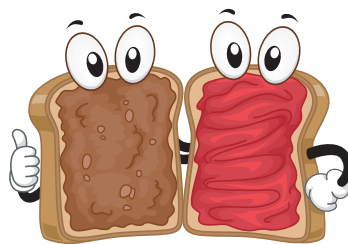

**The edible seed starts growing above ground, but matures underground, so they are sometimes referred to as groundnuts!**

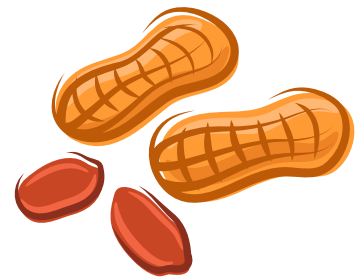

**The top peanut producing states in the U.S. are: Georgia, Alabama, Florida, Texas, North Carolina, South Carolina, Arkansas, Virginia, Mississippi, and Oklahoma.**

**ONE ACRE OF PEANUTS CAN MAKE APPROXIMATELY 30,000 PEANUT BUTTER SANDWICHES!**

**THE MAJORITY OF PEANUTS ARE PROCESSED IN SOME WAY BEFORE REACHING CUSTOMERS. SOME OF THE COMMON "PROCESSED" PRODUCTS INCLUDE: PEANUT BUTTER, ROASTED PEANUTS, PEANUT OIL AND PEANUT FLOUR.**
