Quiz

Circle the correct answer for the following questions:

1. Which tool or machine creates small holes in the soil of lawns or sports fields that help air, water, and nutrients reach the grass roots more easily?
 - A. Disc Harrow
 - B. Auger PTO
 - C. Hydrometer
 - D. Aerator
2. Which is an agricultural implement that is used to till the soil where crops are to be planted and chops up unwanted weed or crop residue?
 - A. Auger PTO
 - B. Aerator
 - C. Hydrometer
 - D. Disc Harrow
3. Which instrument can be made of glass and consists of a cylindrical stem and a bulb weighted with mercury or lead shot to make it float upright?
 - A. Disc Harrow
 - B. Auger PTO
 - C. Hydrometer
 - D. Aerator
4. Which implement is designed for one-person operation and leverages the power of a tractor to drill into the soil?
 - A. Auger PTO
 - B. Aerator
 - C. Hydrometer
 - D. Disc Harrow
5. Which tool can be used instead of a saw to create smoother slices through pipes or tubing?
 - A. Disc Harrow
 - B. Pipe Cutter
 - C. Hydrometer
 - D. Protractor

Quiz

Circle the correct answer for the following questions:

6. Which tool can be portable and battery-powered that offers maximum mobility without needing a power socket or using rechargeable batteries?
- A. GPS Unit
 - B. Cordless Drill
 - C. Hydrometer
 - D. Aerator
7. This navigation system tool uses satellites, a receiver, algorithms, velocity, and time data and are used by many individuals working as agriculture, mining, first responders, scientists, pilots, boat captins, and more.
- A. Cordless Drill
 - B. Aerator
 - C. Hydrometer
 - D. GPS Unit
8. This tool is used in geometry to measure and draw angles and are used by many individuals working in agriculture engineering, design, art and architecture.
- A. Shop Vacuum
 - B. Protractor
 - C. Hydrometer
 - D. Aerator
9. This instrument is used to measure specific gravity or relative density of liquids (the ratio of density of the liquid to the density of water). It is used to test automotive coolant, milk, and acids.
- A. Auger PTO
 - B. Aerator
 - C. Hydrometer
 - D. Disc Harrow
10. Which tool is designed for cleaning debris commonly found in workshops, garages, and construction sites and is ideal for picking up nails, sawdust, wood scraps, and liquids?
- A. Cordless Drill
 - B. Aerator
 - C. Hydrometer
 - D. Shop Vacuum
